COMPANY OVERVIEW

About Us POSmart Systems

POSmart Systems is a Kenyan Registered business that is focused on providing Cutting Edge Point of Service Solutions to Businesses of All Sizes. Our team comprises of qualified and vastly experienced professionals in Retail and Hospitality Industries.

HOTELSTAR POS SOLUTION

About HotelStar

HotelStar POS is a modern Restaurant Management System/Hotel POS to make the work of managing you easy and efficient. Fully Touch enabled and Accessible across devices, it's loaded with features and reports.

HotelStar incorporates a Hotel Property Management System (PMS)- Roomio. It is ideal for any Hotel, Restaurant, and Hotels with Rooms, Apartments or Cottages. HotelStar POS is a robust, reliable system that has been tested on very busy establishments.

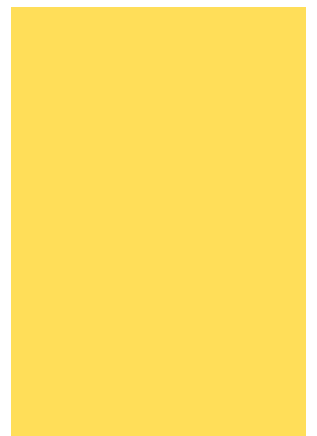

Built on a powerful database backend and a futuristic web-based GUI, our system is scalable and adaptable to ever-changing business needs and technology.

Access your data and reports easily. Whether you are a small Cafe or a Big Restaurant is the choice for you. HotelStar also has an online access module to enable you to access your Business data from anywhere in real time.

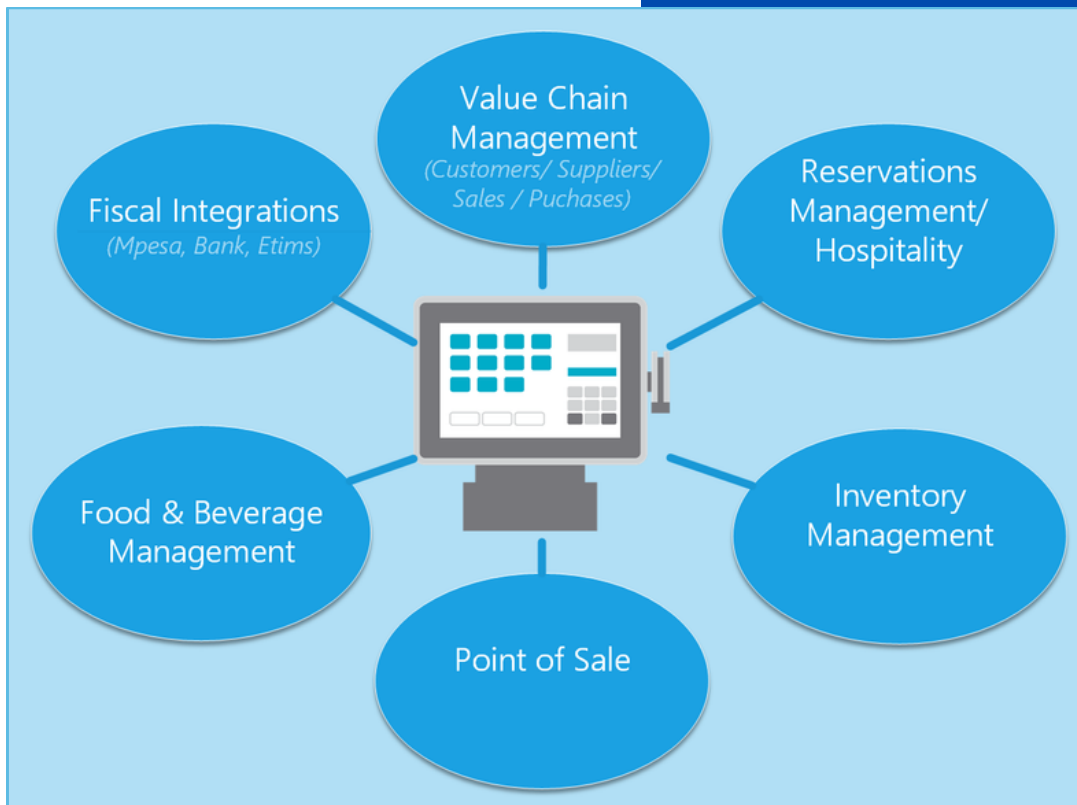

WHY CHOOSE HOTELSTAR

1. Web Based System: HotelStar was built to run off the Web. It is therefore able to easily communicate with other APIs and as Well Host is own API.
2. Local expertise: HotelStar is built locally by POSmart Systems Ltd. Support, maintenance and Upgraded are therefor within reach. We also do customization to your Specific Need
3. Our Team is made of Highly Qualified Software Engineers with Vast experience in Complex Integrations for Leading Restaurants Supermarket Chains in Kenya & East Africa
4. Futuristic System with Multi Device Access: HotelStar is a responsive system accessible on any device with a browser. Als
5. Integrations: System is Integrated for ETIMS, Mpesa, and Accounting systems
